Rescue Our Rivers: Petition hand-in to No.10 Downing Street

Author : lewis

Date : 27 September, 2023

On September 21st, we visited No.10 with Team Water UK to hand over the ‘Rescue our Rivers’ petition to parliament.

With over 106,000 of your signatures, we are sending a very clear message: – the public will be putting water quality as a TOP voting issue ahead of the election.

A huge thank you to all who signed, shared and supported our petition, calling for all political parties to save our rivers and waterways before it’s too late.

River Action’s CEO, James Wallace, outside No.10 Downing Street with the ‘Rescue our Rivers’ petition.

Between 12 – 21 September 2023, Tim Wakefield and Ben Covey swam, paddled and rowed 227km of the River Thames to raise awareness of the plight of our waterways and carry the Rescue Our Rivers petition to No.10 Downing Street.
